

Bearing Module 100

- **Article-No.: 85-900-033**
- **Use**
 - Heavy industry
 - Rolling mills
 - Presses
- **Delivery occurs completely in a mounted manner with a custom-designed encoder type or can be attached later**

General characteristic data

Description

The Bearing-Module 100 is used as bearing adapter for our 100 encoder types, to absorb excessive bearing loads. A typical application is the attachment of a chain disc or belt disc.

Mounting - Overview
